## Your July Update

### Labour Board Update

Dear members,

CUPE Ontario Health atHome members are meeting at the labour board on Friday, July 25th for the consultation summary regarding the PLSRTA application.

We want to assure CUPE members that our top priority is to set the earliest possible date for the representation vote to take place. This will allow us to focus on the bargaining issues and negotiate your new collective agreement.

CUPE is hopeful the representation vote can be completed in the fall. CUPE is cautiously optimistic that the other unions share our sense of urgency here and will put the needs of the rank-and-file members first.

Ontario Healthcare workers are under pressure from a government that is seeking to dismantle and privatize our jobs. We need a strong and united front to challenge them at the bargaining table and fight for the public healthcare system and the workers who make it run.

We will provide a comprehensive update on the status of the vote as soon as possible after the July 25th hearing.
